

## *Aquarium Chiller*

One step temperature control on digital LED display

Simple to install and maintain - includes washable air filter

Corrosion-resistant titanium heat exchanger

Watertight 360° adjustable inlet and outlet connections

One year limited warranty

The Oceanic Aquarium Chiller provides accurate temperature control with the quality construction and durability you have come to expect.

### Programmable LED Display

The LED display is highly visible and so simple to use. Just press the up or down arrows to raise or lower the target temperature and press the “set” button to lock it in. On units with optional heater control, a LED light will indicate whether the unit is currently heating or cooling.

### Adjustable Inlet and Outlet Connections

The inlet and outlet connectors can be rotated by simply unscrewing the water chamber caps. As the caps are tightened the compression gasket completely re-seals the connection to prevent leaks.

### Reusable, Washable Air Filter

The included air filter keeps contaminants away from the cooling unit to ensure efficiency and longevity of the motor. The air filter is easily accessible and can be removed for cleaning, eliminating the need to purchase replacements.

## Aquarium Chillers

### Specifications

ITEM #	DESCRIPTION	TUBING SIZE CONNECTORS	RECOMMENDED AQUARIUM SIZE	RECOMMENDED FLOW RATE	
01501	Aquarium Chiller 1/10 HP	5/8" or 3/4" I.D.	Up to 55 gallons	200 gph – 300 gph	
01502	Aquarium Chiller 1/6 HP	5/8" or 3/4" I.D.	Up to 90 gallons	325 gph – 550 gph	
01503	Aquarium Chiller 1/4 HP	5/8" or 3/4" I.D.	Up to 125 gallons	475 gph – 800 gph	
01504	Aquarium Chiller 1/2 HP	3/4" or 1" I.D.	Up to 250 gallons	750 gph – 1,500 gph	
01505	Aquarium Chiller 1 HP	3/4" or 1" I.D.	Up to 500 gallons	1,000 gph – 2,000 gph
